MYTREX INC.
SYNERGY BY DESIGN

How We Do It

Mytrex's systematic approach to designing PERS is unique; Mytrex utilizes its vast experience and knowledge gleaned from designing not only PERS, but also the monitoring software and hardware that is used to monitor PERS. Furthermore, Mytrex's main business function is to design and manufacture PERS. As a result, those who purchase the MXD can rest assured that the product has been designed with their best interest in mind.

THE MXD

Your answer to telephone compatibility

The MXD is the first traditional PERS on the market to be completely VoIP compatible. When a customer switches from POTS to VoIP, the MXD simply makes the call when needed. As more homes get rid of their POTS lines and switch to the other mediums of communication, the MXD will continue to become more and more valuable to our partners.

WHAT'S NEW

The MXD is designed to be more cost effective to own, monitor and service than any other unit in the industry. The MXD is compatible with all telephone formats (including VoIP and cellular terminals).

- Designed to communicate in all formats into any central station
- Compatible with VoIP, cable telephone systems and cell terminals
- Supervised Panic Buttons
- The base unit back-up battery provides power for up to 80 hrs
- Monitored Panic Buttons
- Typically 5-7 years before base unit battery replacement
- Typically 5 year panic button battery (Monitored Battery)
- High quality simplex and duplex modes
- Two-way speaker phone feature- programmable

- Dealer programmable
- Smallest waterproof panic button in the industry
- Panic button range up to 600-1000 feet
- Panic button Range test mode
- Monitor Mode (facilitates more efficient troubleshooting with customers)
- Voice messages and prompts
- Receive MXD's programmed with receiver numbers, account ID, etc.
- Easily repairable by dealer
- Private labeling available
- Medication Dispenser Compatibility

REPORTING FORMATS
(Partial List)

1. Contact ID
2. Account + Alarm + Checksum
3. Mytrex MXD Format
4. Voice Signaling
- Account Code or Serial Number + Alarm Code

EASY TO INSTALL

The small footprint, voice prompts and messages, range test mode, reversed telephone connection reporting, and VoIP compatibility make the MXD the simplest PERS to install in the industry

PROGRAMMABLE IN THE FIELD

The MXD is dealer-friendly and can be programmed by the provider using either a telephone or easy to use GUI application.
